

To apply for this role, please email your CV to: tech-jobs@mirlimited.com

The Company

MuchBetter is an eWallet app spearheading innovation in payment technology. We specialise in providing the perfect eWallet solution in 185 countries, for now more than 1 million customers.

MuchBetter brings together a team of tenacious thought-leaders, re-imagining the business model of payment services and pushing the boundaries and capabilities of a payment app.

With offices in the UK, the Isle of Man, Spain and Costa Rica, our team is multicultural, and our workspace is a place for creativity, change, innovation and collaboration. We employ people who think outside the box, share ideas without restrictions, take pride in supporting the wider team, and are not afraid to ask questions.

The Role

The Tech team is looking for multiple *Senior iOS/Android Developers* to join them. This is an excellent opportunity for multiple iOS and / or Android developers to join a maturing fintech start-up (4 years in) building a cutting-edge platform. We are looking for someone who has the experience mentioned below but someone who feels passionate about their job.

This is a great time to join the company as we continue to build upon our exciting and award-winning product with a great team committed to the continued adoption of an Agile and DevOps culture.

Working with a multi-disciplined team of likeminded individuals you will take responsibility for creating & enhancing the app, using best in class technology, for this high-volume financial platform.

We offer a relaxed, friendly environment where you'll get be able to make an impact, work with innovative technologies and your hard work will be appreciated.

Experience:

- It is essential that you have a minimum of 3 years commercial experience working on native iOS or Android mobile app development.
- Experience in FRP (Functional Reactive Programming)
- Experience using RxSwift/ReactiveCocoa (iOS) or RxJava (Android)
- Swift 5/Kotlin

Desirable Skillset / Experience

- simple, efficient UI design and advocate of great UX that is aligned to the native platform.

- experience working in a small but smart team closely with Product, Design and UX to help refine requirements and give feedback
- experience using a design tool (Figma, Adobe XD, Sketch)
- experience with mobile CI systems (Fastlane, CircleCI, Jenkins, Bitrise, Travis)
- experience with various Firebase modules (Crashlytics, Analytics, Remote Config, A/B testing, App Distribution, Messaging, ...)
- experience shipping apps in the App Store / Play Store
- experience with multilingual apps
- experience with analytics systems (Google Analytics, Firebase Analytics, CleverTap, BigQuery)

Remuneration:

- A highly competitive salary
- Bupa health insurance for you and your family
- Bupa dental insurance for you and your family
- 25 Days annual leave + all bank holidays
- 1 extra day annual leave for your birthday
- Aviva Pension
- Social & celebration events
- Charity and social Committees
