

Web Developer

The Company

MuchBetter is an eWallet app spearheading innovation in payment technology. We specialise in providing the perfect eWallet solution in more than 180 countries, for now more than 1,000,000 customers.

MuchBetter brings together a team of tenacious thought-leaders, re-imagining the business model of payment services and pushing the boundaries and capabilities of a payment app.

With offices in the UK, the Isle of Man, Spain, Lithuania and Costa Rica, our team is multicultural, and our workspace is a place for creativity, change, innovation and collaboration. We employ people who think outside the box, share ideas without restrictions, take pride in supporting the wider team, and are not afraid to ask questions.

The Role

The role of the Web Developer is to provide implementation and best-practice guidance to all members of the MuchBetter team.

Core Responsibilities:

- ✓ To deliver web components to enable MuchBetter products.
- ✓ To design and develop high-volume, high-performance, high-availability applications using proven frameworks and technologies.
- ✓ To ensure consistent use of shared platform components and technologies.
- ✓ To contribute to best practice for web application development.
- ✓ To be responsible for work quality, ensuring it meets the technical standards of MuchBetter.
- ✓ To work to the MuchBetter policy on Health and Safety.

Role Requirements:

Knowledge

- ✓ Preferred – Degree qualified in related subject.

Experience

- ✓ A background in software engineering.
- ✓ Demonstrable experience developing web applications.
- ✓ Experience designing & implementing public facing web applications.
- ✓ Good understanding of the finance industry and payment systems.
- ✓ Experience of the following is highly desirable: Vue.js, Angular, React, Javascript, Bootstrap, REST, Node, HTML, CSS, MochaJS, Jest, SEO.

Skills

- ✓ Significant and demonstrable web development experience.
- ✓ Demonstrable experience of implementing best practice – especially around scalability, availability and performance.
- ✓ Demonstrable experience of test-driven development alongside use of automated test frameworks & mocking/stubbing.
- ✓ Proven experience of project working and commercial development processes - particularly Agile methodologies.
- ✓ Experience of working in an environment where products have to be delivered to specific timescales.

- ✓ An ability to rapidly and effectively understand and translate product and business requirements into technical solutions.
- ✓ Experience of supporting, modifying and maintaining systems and code developed by teams other than your own.
- ✓ Experience of working with code repositories (e.g. Git, SVN), bug tracking tools (e.g. Jira, Bugzilla), Wikis (e.g. Confluence) and code review tools (e.g. Gerrit).
- ✓ Demonstrable experience with CI/CD processes and their implementation (e.g. Jenkins, Ansible, Puppet).
- ✓ Demonstrable experience of providing mentoring & guidance on any of the above.

Attributes and Behaviours

- ✓ Analytical thinking - able to simplify complex problems, processes or projects into component parts explore and evaluate them systematically.
- ✓ Strategic thinking – able to identify a vision along with the plans, which need to be implemented to meet the end goal, evaluating situations, decisions and issues in the short, medium and long term.
- ✓ Influencing and persuading - able to present sound and well reasoned arguments to convince others. Adapts to the situation and can draw from a range of strategies to persuade people in a way that results in agreement or behaviour change.
- ✓ Communication - able to get one's message understood clearly by adopting a range of styles, tools and techniques appropriate to the audience and the nature of the information.
- ✓ Managing relationships and team working - able to build and maintain effective working relationships with a range of people. Works co-operatively with others to be part of a team, as opposed to working separately or competitively.
- ✓ Keeps pace with change – acquires knowledge/skills as the business develops.

Location: Isle of Man or UK (remote)
